1. “Talking Head” as Part of a Funding Application

As part of a funding application you may wish (or may be required) to include a short video outlining your research project.

If what you are looking for is short (e.g. up to 5 minutes) and consists of a single presenter (or “talking head”, i.e. a presenter who addresses the camera and is viewed in close-up), then UCD Library can:

- Advise on your requirements and assist with the planning (this will include a face-to-face meeting)
- Film in an appropriate location within the Library or elsewhere on campus (but not off-campus)
- Video edit

This service is provided free of charge. As part of the advisory process the Library will also offer guidance on meeting a funder’s open access and open data requirements, and provide relevant forms of wording, templates and practical assistance.

2. Video Footage to Help Publicise Research

At the end of the research process you may wish to have a video created that helps to amplify or publicise your research. The cost of this can be factored into a funding application, and may comprise part of a dissemination plan. UCD Library can:

- Advise on your requirements and assist with the planning (this will include a face-to-face meeting)
- Film in an appropriate location within the Library or elsewhere on campus (but not off-campus)
- Video edit

This is a charged for service. Charges (Flat-rate):

- Filming
  - €500 per day; €250 for half a day (up to 3.5 hours)
  - Third party costs
- Video editing
  - €500 per day; €250 for half a day (up to 3.5 hours)

3. Audio Recordings

UCD Library can facilitate researchers who wish to record audio interviews with research participants, through the provision of the following services:

- Advice on workflows
- Loan of a zoom recorder (subject to certain conditions)
- Use of an appropriate room within UCD Library

4. Uploading to Youtube/Vimeo

To promote your new video, upload it to one of the most popular video sharing websites — YouTube and/or Vimeo. We can support you in the following ways:

- How to create a YouTube or Vimeo account
- Step by step instructions on uploading your videos to the platform
- Advice on how best to get your video seen, through strategic use of metadata — creating strong video titles and descriptions and choosing the most relevant keywords and categories for viewer discovery.
